

Cold Winterday

© Martin Friedli, 2017

Vers

It was a cold Winter day
Snow fell softly from the sky
Suddenly I saw you standing there
Smiling kindly at me
And the sun was rising in my heart
And the sun was rising in my heart

Vers

Don't know where you come from
Don't know where you will go
You must have been heaven-sent
And I felt like never before
And the sun was rising in my heart
And the sun was rising in my heart

Chorus

You set me on fire, the flames were burning so high
You've shown me things deep inside of me
||: I haven't known about before
I haven't known about before
I haven't known about before :||

Vers

The way it goes is somethimes strange
Hope for the unexpected and see
Wonders will happen in your life
You melt the ice inside me
And the sun was rising in my heart
It's true, it's still shining there

Outro

Das isch jetzt scho es Zitli här
Aber es isch wie wenn's gester wär gsy
Und wenn mi dr Blues wott packe
Und me Chäuti umgit
Dänke ig zrugg a die Zyt
und die warmi Sunne geit wieder i mir uf
