

# Together

© Martin Friedli, 2017

## Vers

So what do you say, after all this time,  
we've been together on our way,  
through all these heights and through all those lows.

So what do you say, when looking back,  
what do you see, is it good or bad,  
what would you change and what should remain

## Chorus

With His help  
we will pass the test of life,  
with His love we will stay all right  
With His help  
we will pass the test of life,  
with His grace we will - stay, stay all right - together

## Vers

I'm looking in your eyes and feel the pride,  
to be here at your side on this life journey  
with all its stations, with all its colors

So let us thank the lord, for all he has given us,  
to be the rock under our feet  
and the light on our street

## Bridge

This is your life, this is my life,  
it's our life and you are my life
